PROFESSIONAL EXPERIENCE

Junior Software Developer   May 2018 to Present
 Nashville Software School

Intensive full-time software development bootcamp focusing on full stack development fundamentals and problem solving. Strong focus on Javascript, and React in the front end, and just starting back end curriculum with a focus on C# and .NET.

• Hands on application of OOP fundamentals and SOLID principles through group and individual projects reflecting real world business problems.
• Source code version control with Git/GitHub.
• Project management/tracking with Github Projects & Issue Tracking.
• JavaScript fundamentals leveraging DRY, modular, readable code and reusable components. • Built single-page applications with React, Browserify, HTML, CSS, jQuery.
• Task Automation with Grunt: ESLint, module bundling with Browserify.
• Styled applications with CSS Frameworks Bootstrap, Bulma and Bloomer.
• Deployed applications through Amazon S3, GitHub Pages, Heroku.
• Application design through white boarding dependencies and building ERD's.
Shortly to begin back-end curriculum focusing on C# and .NET with graduation in November.
