William Kimball

Full Stack Junior Developer

ABOUT

Curiosity has always been my defining character trait, and ever since I was a child I have voraciously consumed new information. My inquisitiveness led me to pursue education in anthropology as I sought to understand humanity more deeply. Since making the switch to software development, I am often stunned when I reflect on how my life has changed, and I am incredibly excited to be pursuing a career that has no room for intellectual stagnation, and will constantly push me to learn new skills.

WORK EXPERIENCE

Apprentice Software Developer at Nashville Software School | 2018 - present

Intensive full-time software development bootcamp focusing on full stack development fundamentals and problem solving. Strong focus on C# .NET, Javascript, and React.

• Hands on application of OOP fundamentals and SOLID principles through group and individual projects reflecting real world business problems.
• Source code version control with Git/GitHub.
• Project management/tracking with Github Projects & Issue Tracking.
• JavaScript fundamentals leveraging DRY, modular, readable code and reusable components.
• Built single-page applications with React, Browserify, HTML, CSS, jQuery.
• Task Automation with Grunt: ESLint, module bundling with Browserify.
• Styled applications with CSS Frameworks Bootstrap, Bulma and Bloomer.
• Deployed applications through Amazon S3, GitHub Pages, Heroku.
• Application design through white boarding dependencies and building ERD's.

Operations assistant at Highlands Professional Group, LLC |May 2017- may 2018

• Processed HIPAA regulated medical billing items to the State of Tennessee Department of Disability Services.
• Organized and executed renovation of a housing structure through managing sub-contractors.
• Configured 13 office locations around Tennessee, Alabama, and Georgia.

Retail Assistant Manager/ Internet Commerce Manager
Christian Publishers Outlet – Murfreesboro, TN | June 2014 - January 2016

• Coordinated different business operations from store manager to sales representative, and assistant manager respectively.
• Directed all internet sales from fulfilling orders to customer interactions, totaling over 200 orders per day.

Portfolio

DartBoard

DartBoard is a travel planning app that users can utilize as a central repository for information related to their travel plans. Built in React and utilizing Bulma, Node.js, and three API's.

https://github.com/williamkimball/dartboard

Reactive Nutshell

Nutshell is a dashboard for people to use to organize their daily tasks, events, news article, friends, and chat messages. Built from the ground up in React and has full CRUD functionality.
